**Revised National Tuberculosis Control Programme**  
**3<sup>rd</sup> Quarter 2010**

Dear Colleagues,

It is my great pleasure to inform you that Revised National TB Control Programme has maintained NSP case detection rate of > 70% and treatment success rate of > 85% at the national level during the 3<sup>rd</sup> quarter, 2010. The programme, while consolidating and sustaining its past achievements, is progressing well towards achieving the TB related Millennium Development Goals

**RNTCP performance in 3<sup>rd</sup> quarter 2010**

During the quarter, over 1.94 million TB suspects were examined, 237206 sputum positive cases were diagnosed, and 383599 TB cases were registered for treatment. The annualized total case detection rate is 130 cases per 100,000 population. With a total of 157,360 new smear positive cases, being registered for treatment, the new smear positive TB case detection rate (annualized) for the 3<sup>rd</sup> quarter 2010 is 71%. In addition to this, 99582 new smear negative cases, 58126 new extra pulmonary cases, 52198 smear positive re-treatment cases and 22972 re-treatment others cases were also registered for treatment during the quarter. The treatment success rate amongst the new smear positive PTB cases, registered in the 3<sup>rd</sup> quarter 2009, is 87% and the sputum conversion rate of patients registered during 2Q10 is 90%. The default rates among NSP (5.8%), NSN (6.7%) and re-treatment cases (14.1%) continues to show the declining trend over the past several quarters

**Major Activities during the quarter**

**Progress in involvement of Medical Colleges**

Zonal Task Force workshops (East Zone and South Zone) for involvement of Medical Colleges in RNTCP were held in Kolkata and Chennai during the quarter.

**Progress in accreditation of Intermediate Reference Laboratories (IRL)**

As you are aware, 10 IRLs across the country have already been accredited. In addition, state C&DST Labs of Haryana, UP and Uttarakhand are in the advanced stages of accreditation and the labs of other states are under various stages of the accreditation process. To supplement and support the state lab network the programme is also involving mycobacteriology laboratories of Government Medical Colleges as well as laboratories in the NGO and Private Sector. Till date, five labs in other sectors (CM Vellore, PD Hinduja Hospital Mumbai, BPRC-Hyderabad, RMRCT Jabalpur and SMS Jaipur) have been accredited. Another five labs (Quest Diagnostics Gurgaon, SRL Religare Gurgaon, SRL Religare Mumbai, Chaitram Hospital Indore and Bhopal Memorial Hospital, Bhopal) are nearing accreditation, and several other labs have applied for accreditation. Apart from these, Govt medical college laboratories (AIIMS New Delhi, JJ Hospital Mumbai, and PGI Chandigarh) are also in the accreditation process.

**Progress in the DOTS- Plus services for MDR TB cases**

DOTS Plus services for management of MDR-TB are now available in 130 districts covering a population of 260 million in 10 states. Till date a total of around 2985 MDR-TB patients are on treatment in these states. Other states are in various stages of preparatory activities for rolling out DOTS-Plus services.

**Progress in TB-HIV Collaborative Activities**

Intensified Package of TB-HIV collaborative activities have been rolled out in total 29 states including 11 states in 2010. In 3q10, TOT on Intensified Package of TB-HIV Collaborative Activities has been completed in states namely Arunachal Pradesh, Chhattisgarh, Haryana, Himachal Pradesh, Madhya Pradesh, Meghalaya, Sikkim, Tripura and Uttarakhand. I would like to congratulate the states which are performing well like Chandigarh, Goa, Karnataka, Puducherry and Tamil Nadu, where more than 80% of TB patients registered in 3q10 know their HIV status and urge other states to accelerate progress in this regard. The proportion of HIV-positive TB patients put on CPT has improved to 93%, but linkage to ART, though improved (50%), still remains the biggest challenge.

### **Progress in procurement and drug logistics management**

Training on Drug Logistics Management for SDS, District Pharmacists and RNTCP Medical Consultants of Madhya Pradesh, Kerala and Orissa was conducted by SAMS Team, CTD in July, August and September 2010 respectively. Prior to training, field visits to DTC/TU/PHI of selected districts of concerned states was also conducted by the SAMS team. During the quarter, 120 persons were trained in Drug Logistics.

### **Progress in ACSM activities**

Capacity building workshop for STOs, DTOs, IEC Officers, Communication facilitators and NGOs participating in the RNTCP held at Guwahati, Assam for North-eastern states and at Bhopal, Madhya Pradesh for the state of Madhya Pradesh and Chhattisgarh.

Formative Research completed to feed into development of communication material and strategy for MDR-TB, TB-HIV collaboration, Stigma and Discrimination and Airborne Infection Control measures.

Mass media release done over television, Radio and Digital Media of various messages related to TB control.

### **Progress in Partnerships**

The Confederation of Indian Industry (CII) conducted Regional Conferences on "TB Management at Workplace and Beyond" on 6<sup>th</sup> July at Ranchi, 9<sup>th</sup> July at Pune and 22<sup>nd</sup> July at Mysore for the Eastern, Western and Southern states respectively. It was attended by representatives from the Industry including medical advisors, NGOs as well as RNTCP programme managers of the states. The consultations provided an opportunity to discuss the workplace interventions under RNTCP.

The Partnership for TB Care and Control organized the Regional Consultative meetings for Partners at Dehradun on 15<sup>th</sup> - 16<sup>th</sup> July and Shillong on 23-24<sup>th</sup> September to develop a common understanding and agreement among the key stakeholders for involving Partners in TB care and control at state and regional level. This provides the Partnership a more geographic focus as well as a platform to share experiences and views among partners.

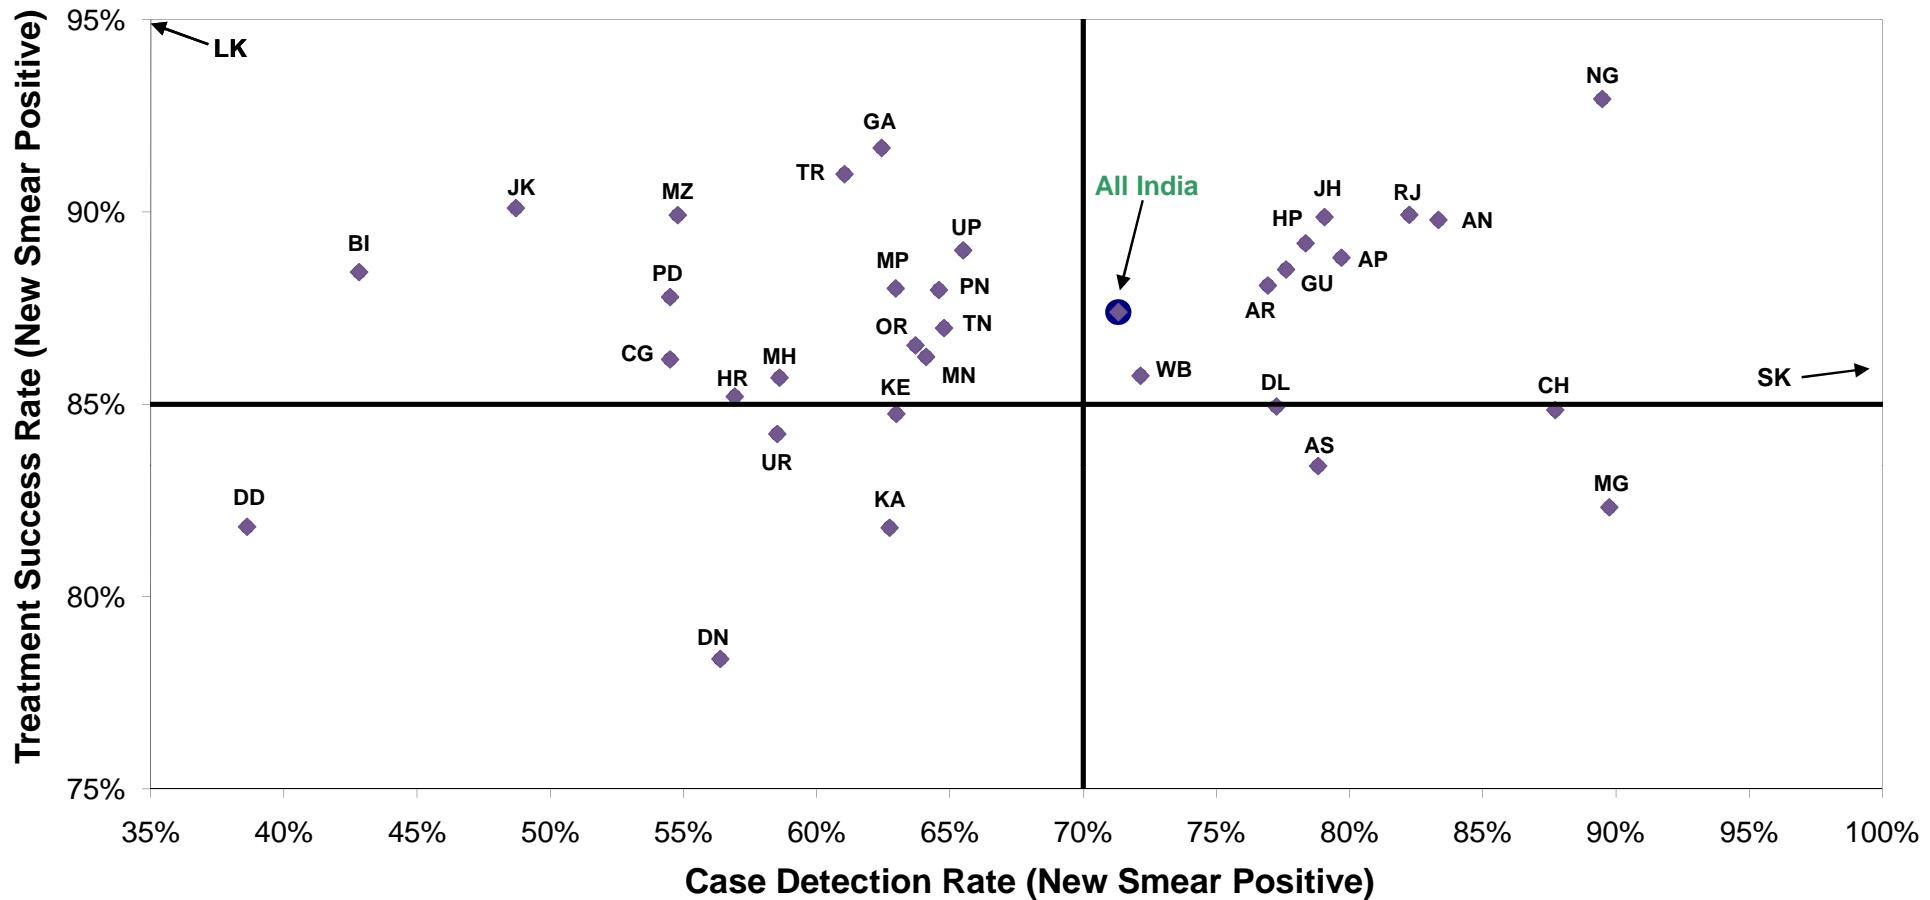

### **Progress in Operations Research**

A one year TB Operational Research (OR) Training project for professionals associated with the RNTCP was initiated during this quarter. This project is a collaborative effort between 'The Union (IUATLD) South-East Asia (USEA), Regional Office, New Delhi', World Health Organization, India and The US Centers for Disease Control, Atlanta in coordination with Central TB Division, MoHFW, and National TB Institute (NTI), Bangalore. The first protocol development workshop was held in Sept, 2010 at NTI. Thirty three participants worked and refined 17 RNTCP priority Operations research topic concept notes into operations research protocols. They will be supported to implement these OR studies. These studies when completed will provide further evidence to stream line the policy and programmatic processes to benefit the TB patients.

The Global Fund Round 9 India TB project was initiated by the two civil society Principal Recipients (The Union and World Vision-India). The civil society component of this project aims to improve the reach, visibility and effectiveness of RNTCP through civil society support and to effectively engage communities and community-based care providers in 374 districts across 23 states by 2015 to improve TB care and control, especially for marginalized and vulnerable populations including TB-HIV patients.
